## Propnut 2010 Officers

### President

Greg Thomas 301-8341

### Vice President

Cameron Wall 250-7034

### Secretary

David Pinjuv 656-1772

### Treasurer

Tom Collins 348-5296

### Safety Director

Stan LePoint 395-2892

### Newsletter AMA Contact

Greg Thomas 301-8341

### Directors

Chuck McBride

Jerry Carrick

## From the President

Does anyone build anymore? This question came to light a month or so ago in Albuquerque New Mexico of all places. A few of us made the trek over there to participate in a scale fly in event. Anyway, Warren was talking to a young man who had won a build-it-yourself wood kit and the young man gave the kit to Warren saying "I don't know how to build." For those of us for whom building is second nature the young man's statement is perhaps surprising. However for anyone keeping tabs on what is going on in the country those folks know skilled labor trades, craftsmanship and a sense of fixing things yourself have eroded in the U.S. population. College and the associated forms of "higher education" are seen as the keys to success for up and coming citizens. Mention trade school or an apprenticeship of some type and many will frown while viewing the person seeking such experience as somehow below average. There are plenty of books on this subject written by people infinitely smarter than me so I won't belabor the point any more other than to point out why RC modeling can be a welcome departure from the normal way of things nowadays.

Looking at a well-constructed RC model airplane is a pleasurable way to remind ourselves that some people do indeed still build and craftsmanship is alive and well...at least in modeling circles.

We fly at the McCool RC Model Field.  
Take I-95 to Rancho. Go north on Rancho to Decatur. Turn right on Decatur and go north to Horse Drive. (Rectangular water tank on corner) turn right and follow street until you see the airfield on your left alternate directions go north on Simmons to Horse Drive turn left and the field is on your right . **Sound abatement measures in effect.**

### Hobby Shops

Nice Twice 311 South Valley View  
876-2280

Hobby Town USA 5085 W. Sahara  
889-9554

Hobby People 2610 S. Decatur Blvd.  
871-6191

Hobby People 5466 Boulder Hwy.  
547-2204

**Meeting Wednesday, 28 Jul  
7:30 PM**

**Show and tell:**

**Greg Minden TBM Zero**

**Greg Thomas ESM Hurricane**

## **FOR SALE**

### **Hangar 9**

## **Piper Pawnee 40 ARF**

Wing Span: 80 in. (2-piece wing with flaps)

Includes: Pilot, Fuel Tank, Upgraded  
Tail Wheel, and Assembly Manual
